---

In the number 16 of the Estudo Prévio journal, following the editorial project, we continue the premises that guide us of being an academic journal, sharing research and knowledge of the written and spoken word, crossing different geographical and thematic fields. We publish several papers dedicated to ports and their territories and had the opportunity to interview the architect Giorgio Santagostino. In this number, we also publish one review on the book by Le Corbusier *Aircraft* and one on the recently launched Da/UAL + CEACTIONAL book *Fazer uma escola – To build a school Da/Ual20*.
